	Universitas Brawijaya **Faculty of Mathematics and Natural Sciences** **Department of Statistics / Bachelor Statistics Study Programme**

Module Handbook		
Module Name:	Multivariate Analysis II (MAS61116)	
Module Level:	Bachelor	
Abbreviation, if applicable:	-	
Sub-heading, if applicable:	-	
Courses included in the module, if applicable:	-	
Semester/term:	7th / Fourth Year	
Module Coordinator(s):	Dr. Ir. Solimun, MS.	
Lecturer(s):	Dr. Ir. Solimun, MS.	
Language:	Indonesian	
Classification within the curriculum:	Elective course	
Teaching format / class per week during semester:	3 × 50 minutes	
Workload:	2.5 hours lectures, 3 hours structural activities, 3 hours individual studies, 16 weeks per semester, and total 136 hours per semester 4.5 ECTS	
Credit Points:	3	
Requirements:	Multivariate Analysis I (MAS62123)	
Learning goals / competencies:	**General Competence (Knowledge):**	
	ILO1	The students are able to master basic scientific concepts and statistical analysis methods applied on computing, social science, humanities, economics, industry and life science.
	ILO2	The students are able to arrange and/or choose an efficient data collection/ data generated design that applies in surveys, experiments or simulations.
	ILO3	The students are able to manage, analyze, and complete the real case using statistical method on computing, social humanities, economics, industry and life science that helped by software, then present and communicate the results.
	ILO4	The students are able to master at least two statistical softwares, including based on open source.

	ILO5	The students are able to apply logical, critical, systematic, and innovative thinking independently when applied to science and technology that contain humanities values, based on scientific principles, procedures and ethics with excellent and measurable results.
	ILO6	The students are able to take appropriate decisions to solve the problems expertly, based on the information and data analysis.
	ILO7	The students are able to improve and develop a job networks, then supervise and evaluate the team's performance they lead.
	ILO8	The students are able to apply and internalize the spirit of independence, struggle, entrepreneurship, based on values, norms, and academic ethics of Pancasila in all aspects of life.
	Specific Competence:	
	M1	Students are able to apply multivariate methods and are able to implement them in various fields (ILO1, ILO3, ILO5, ILO6)
	M2	Students are able to explain statistics theories and concepts in related fields (ILO1, ILO6, ILO8)
	M3	Students are able to use ICT as a supporter of statistics (ILO2, ILO3, ILO4, ILO5, ILO7, ILO8)
	M4	Students are able to explain statistics theories and concepts and related fields (ILO1, ILO2, ILO5, ILO7, ILO8)
	M5	Students are able to apply statistics theories and concepts and other related fields (ILO1, ILO2, ILO3, ILO4, ILO7, ILO8)
Contents:	1	Implement multivariate methods and be able to implement them in various fields
	2	Explain the theories and concepts of statistics in related fields
	3	Using ICT as a supporter in statistics
	4	Explain the theories and concepts of statistics and related fields of science
	5	Apply theories and concepts to statistics and other related fields
Soft skill attribute:	Responsible, independently, and discipline	
Study/exam achievement:	Final score (NA) is calculated as follow: 20% Assignments, 20% Quizzes, 30% Midterm Exam, 30% Final Exam Final index is defined as follow:	

	A : > 80 - 100 B+ : > 75 - 80 B : > 69 - 75 C+ : > 60 - 69 C : > 55 - 60 D+ : > 50 - 55 D : > 44 - 50 E : 0 - 44
Forms of media:	Software (MS Excel, R, SPSS), Laptop, LCD projector, whiteboard
Learning methods:	Lecture, assessments, and discussion
